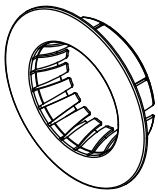
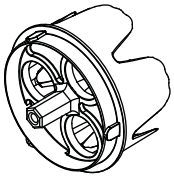
HCER/HCERW

Hole Cutter/Escutcheon Ring



Escutcheon Ring
(Qty 1)



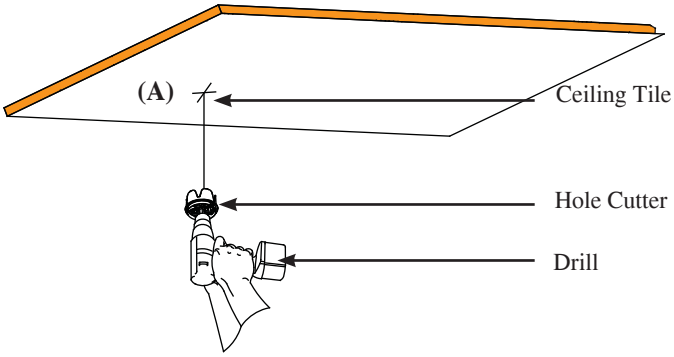
Hole Cutter
(Qty 1)

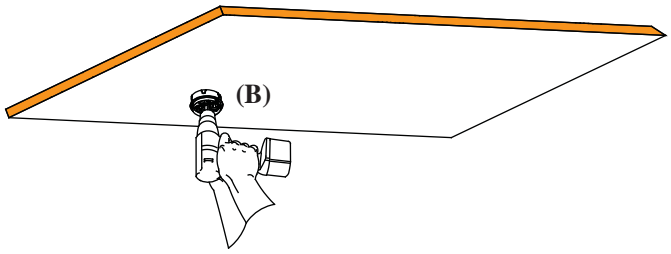
Directions

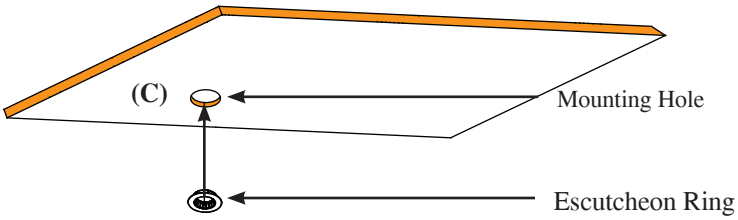
Step 1. Separate the escutcheon ring and the hole cutter.
Step 2. Attach the hole cutter to a portable drill. If no drill is available, you may turn by hand.
Step 3. Determine where the hole will be and mark this location with a pencil **(A)**.
Step 4. Place the hole cutter over the spot where the mark was made **(B)**.
Step 5. Carefully depress the trigger on the portable drill and begin to drill the hole, being careful not to damage the ceiling tile **(B)**
Step 6. Once complete, place the drill off to the side and pick up the escutcheon ring.
Step 7. Line the escutcheon ring up with the drilled whole in the ceiling tile **(C)**.
Step 8. Insert the escutcheon ring into the hole and gently push it into place **(D)**.

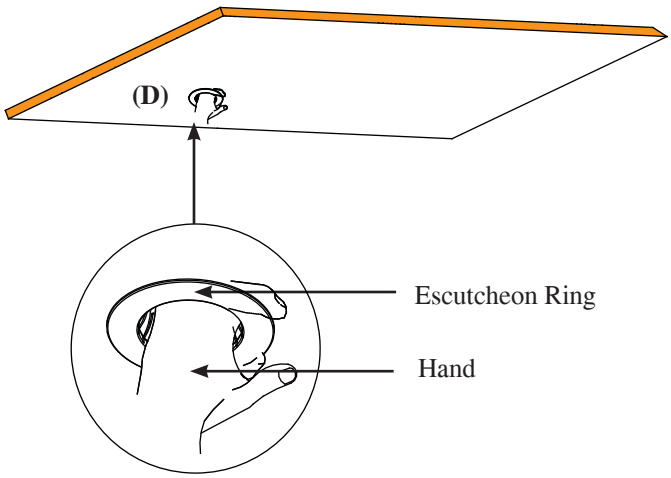
NOTE

You may need to pinch the escutcheon ring into place. This can be done by taking your index finger and placing it up into the mounting hole and pressing down from the top. Your thumb will press up from the bottom, effectively pinching the escutcheon ring into place.









NOTE

The escutcheon ring has been designed for use with 1-1/2” and 2” NPT.
